MEMORANDUM FOR THE RECORD

At the request of Gary Schmitt, Executive Director, PFIAB, the ADDI was asked to consider whether SOVA would again review the Key Judgments in the Pipes Report on political analysis on the USSR. Schmitt understands the report is flawed and, although it is for PFIAB internal use only, he feels it's important that the Board would have a better understanding of the weaknesses in their analysis. Schmitt said that he could not release the report and asked that CIA comment based on its present knowledge of the report or he could make it available to SOVA analysts at PFIAB for further review. The ADDI will discuss Schmitt's request with SOVA and provide guidance.
